

# PORCELAIN—THE PERFECT FIT

## SKIP OLD-FASHIONED BATH LINERS & REMODEL WITH REAL PORCELAIN TILE PANELS

### SUPERIOR STRENGTH, STYLE, VALUE

Prefabricated inserts and liners were once the best way to a quick, cost-effective remodel for bath and shower walls without a full replacement. Now, **bigger is better** when you cover your next bath remodel in **Crossville Tile Panels**.

Crossville Tile Panels—the **thinnest** porcelain panel ever made—effortlessly **outperform inserts & liners**, easily **installing over existing walls** in baths and showers to realize **infinite style options** with **fewer seams** in as little as **four hours**.

### LINERS & INSERTS CAN'T HIDE THEIR WEAKNESS.

**LIMITED STYLES**  
mean fewer options for matching a home's unique look & feel

### LAMINAM SHOWS ITS STRENGTHS.

**INFINITE OPTIONS**  
& combinations of colors, styles & textures

**CUSTOM SIZING**  
fits any installation, while light tiles are easy to move & install

**PRE-SET SIZING**  
can make non-typical installations time-consuming & costly

**ONE-PIECE INSERTS**  
may not fit through doorways for larger tub installations

**INFLEXIBLE DESIGN**  
can create narrow baths & high tub walls in small installs

**LIFETIME BEAUTY & DURABILITY**  
scratch and stain resistant

**TILE-OVER-TILE INSTALLATION**  
eliminates demolition & associated costs

**FASTER INSTALLATION**  
in as little as four hours keeps time & costs competitive

**ACRYLIC STAINS**  
& scratches easily, losing its "like new" look fast

**CRACKING**  
can easily occur during installation if liner is not handled properly

**MOLD**  
can grow in the spaces between the insert & old bath/shower surfaces

**REDUCED SEAMS**  
joints, & spacing inhibit mold & enhance appearance

**ECO-FRIENDLIER**  
porcelain offers sustainable, LEED-eligible options

**BETTER RESALE VALUE**  
yields up to 65% higher return on initial investment

### QUICK COMPARISON

LARGE, THIN PORCELAIN TILE PANELS VS. PREFAB ACRYLIC LINERS & INSERTS

	Liners & Inserts	Crossville porcelain tile panels
Thickness	¼"	3mm or 5.6mm
